EXPERIENCE

Quest Alliance

Data and Tech Officer

January 2024 – Present

New Delhi

- Automated **state-wise reporting pipelines** (Excel, Google Sheets, Python, Looker studio, Power BI) and implemented validation checks, **reducing manual data entry** and improving **MI report delivery efficiency** by ~40%
- Designed and maintained **executive dashboards** to track program implementation, regional **KPIs**, and training impact for **government (DTTE)** and **senior stakeholders**, enabling data-driven decisions.
- Developed and deployed **AI chatbots** — a pilot using **Gemini-Pro** for employability skill support and a **WhatsApp bot via Glific** to assist on-ground **training coordination**, **improving planning** and **communication** for **ITI stakeholders**.
- Ran on-field training sessions** and designed training modules on **data literacy**, **dashboard interpretation**, and reporting best practices for program **teams—supporting capacity building** and adoption of MI tools.
- Authored process **documentation**, **SOPs**, **issue management system logs**, and **troubleshooting guides** — executed **UAT testing** in both **production and development environments** of the **Admin Panel**, **Quest App**, and **MyQuest App** to validate updates, ensure governance, and maintain dashboard reliability.

QuantumBit Technologies Private Limited, Geekster

Data Analyst

June 2023 - Sept 2023

Gurugram

- Analyzed **student's feedback data**, **performance data**, and created **dashboards regarding the module week planner**.
- Conducted **SQL-based data cleaning and transformation**, ensuring reliability in reporting.
- Collaborated with program teams to **deliver actionable insights** for **operational planning**.
- Designed and **structured curriculum modules**, **courses**, or **training programs** related to data analysis.

EDUCATION

AlmaBetter

Data Science and Analytics

May 2022 – April 2023

Bangalore

- Developed a solid foundation in **Python**, **SQL**, **EDA**, **Data Visualization**, **Feature Engineering**, **Machine Learning**, **NLP**, and **Deep Learning** while honing storytelling skills through insightful project presentations.

Lalit Narayan Mithila University

Bachelor of Commerce

2018 – 2021

Darbhanga

- Coursework in Business Studies, Statistics, Economics, and Entrepreneurship.

TECHNICAL SKILLS

- Reporting Visualization Tools:** Power BI(DAX), Tableau, Looker Studio, Excel (Advanced), Google Sheets, VBA, App Script, Apache Superset
- Databases:** SQL, PostgreSQL, MySQL, DBeaver, Big Query
- Analytics and ML Libraries Frameworks:** Python (NumPy, Pandas, Matplotlib, Seaborn), Scikit-learn, Data Cleaning Validation.
- Data Analytics Tools:** Power BI, Tableau, Looker Studio
- Documentation Collaboration:** Google Slides/PowerPoint, Google Workspace, Miro, Menti, Jira (for UAT testing and change tracking), CRM Handling

PROJECTS

Revenue Insights Dashboard|*Power BI*| [↗](#)

Dec 2023 - Jan 2024

- Designed **Power BI dashboard** analyzing **\$1.79M** in revenue from **52,561** orders, identifying **top-performing categories** to drive **sales strategies**.
- Conducted **data cleaning** and applied **DAX operations** to build a **budget table**, enabling seamless **data modeling** with other tables for **dynamic visual reports**.
- **Visualizing product revenue** and highlighting **underperforming products** like **Energy Drinks**.

Finance and Supply Chain Analysis|*SQL*| [↗](#)

Oct 2023 - Nov 2023

- Conducted SQL-based data analysis to optimize **inventory management** and streamline **supply chain** processes at Atliq Technology Ltd.
- Improved inventory **forecasting accuracy** and reduced excess stock by **10%**, saving **\$100,000** annually on storage costs.
- Utilized **advanced SQL queries** and query optimization with tools like **MySQL**.

Cardiovascular CHD Risk Prediction|*Machine Learning*| [↗](#)

April 2023 - May 2023

- Built and **deployed a classification model** using **Flask** to **predict the ten-year risk of coronary heart disease (CHD)** across different age groups, leveraging **univariate, bivariate, and multivariate analysis**, along with feature engineering and **SMOTE** to address class imbalance.
- Implemented algorithms such as **Random Forest, SVM, XGBoost, and Logistic Regression** with **cross-validation**, achieving an **F1 score of 91%** with **SVM**.

Global Terrorism Analysis|*Python-EDA*| [↗](#)

Jan 2023 - Feb 2023

- Conducted a comprehensive data analysis framework using **advanced EDA techniques** to **clean and transform** the Dataset, applying **null-value treatment** and **feature selection** to optimize analysis on **attack types, regions, and terrorist groups**.
- Implemented **in-depth analysis** and **visualization** to uncover patterns in terrorist attack frequencies, revealing key trends such as the **dominant use of bombing/explosion tactics** and the **rise of Taliban and ISIL activity post-2011**.

CERTIFICATIONS

- **Microsoft Power BI For Business Intelligence**|*Udemy*| [↗](#)

Professional BI reports, transform raw data into impactfull visuals, and design DAX query for advance analysis.

- **SQL Beginner to Advanced**|*Codebasics*| [↗](#)

Worked on real-time business analytics requirements from a dataset with more than 1.5 million records

- **Full Stack Data Science**|*Almabetter*| [↗](#)

Python, SQL, MS-Excel, Tableau, Machine Learning, statistics

- **Natural Language Processing Specialization**|*Coursera*| [↗](#)

NLP Specialization, mastering both ML and advanced DL techniques to build powerful NLP applications!

EXTRACURRICULARS

President, NSS|Directed COVID-19 Relief Efforts in Rural Communities|

2018 - 2021

- Led a 10-member team for COVID-19 relief and awareness campaigns in rural communities.
- Managed resource planning, communication, and task distribution under tight timelines.

INTERESTS

- **Core Competencies:** Data visualization, Statistical Analysis, Machine Learning, Artificial Intelligence, NLP
- **Hobbies & Passions:** Singing, Cricket & Badminton, Writing
